

Targeted Technology and Information

If you suspect your facility's technology or information has been targeted, report it to your FSO.

To view the most up-to-date information on targeted technology and information, refer to the Targeting U.S. Technologies: A Trend Analysis of Defense Reporting from Industry report. This report is accessed within the Counterintelligence section of the DSS website at www.dss.mil.

Targeted Technology and Information

- Technology information, which includes both classified and unclassified
 - Militarily Critical Technology:
 - Any technology that would allow potential adversaries to make significant advances in the development, production, and use of military capabilities
 - Department of Defense maintains a list of applicable technology
 - Export is strictly controlled by the International Traffic in Arms Regulations (ITAR)
 - Illegal export of this technology often results in fines and/or criminal charges
 - Dual Use Technology:
 - Technology that has both military and commercial use
 - Export is strictly controlled and enforced under the Export Administration Regulations (EAR)
 - Illegal export of this technology often results in fines and/or criminal charges
- Contingency plans
- Personnel information
- Programs, deployments, response procedures

Top 10 Targeted Technologies

- Information systems
- Aeronautics including technology related to unmanned aerial vehicles (UAVs)
- Lasers and optics
- Sensors
- Marine systems
- Positioning, navigation, and time
- Electronics
- Non-Developing Science & Technologies List (DSTL) technology
- Armaments and energetic materials
- Materials and processing
