

# Foreign Travel

Making plans for foreign travel?

Per SEAD 3, you are required to report foreign travel to your facility security office.

Make sure you check these things off of your to-do list!

- Report your foreign travel to your security office prior to the foreign travel occurring.
- Make sure to provide a complete travel itinerary, your passport information, and emergency contact information.
- Be aware of the risks! Visit the Department of State Travel Advisory List to get any pertinent information about the foreign countries you are visiting.
- Cooperate with any additional actions required by your specific facility security office.
