Security Awareness

Security is everyone's responsibility.

Do you know what to do if you see something out of the ordinary?

Protecting classified and sensitive information is not just a security officer's concern, it is everyone's responsibility. Ensure you are up to date on training and follow the requirements outlined in your company's Standard Practice procedures (SPP), as applicable.

Cultivating a culture of awareness and vigilance is essential for keeping our employees, information, and assets safe.

Bottom Line: Be assertive. Be alert. Be aware. Report suspicious activity. When in doubt, reach out to your Facility Security Officer with any security concerns and issues.
