

Upcoming Security Review

For Your Awareness – Upcoming Security Review

The security team wants you to be aware of our upcoming security review with the Defense Counterintelligence and Security Agency (DCSA).

During DCSA's time here, they will be visiting different areas of our facility and may conduct interviews with employees.

To prepare for the review, ensure you are up to date on your training and you are familiar with security policies and regulations related to your daily work tasks.

Please reach out to your supervisor or the security team for further information or assistance in preparation.
