BLUF

BOTTOM LINE UP FRONT

Insider Threat Models

The **BLUF** highlights what we at **The Threat Lab** are watching, listening to, reading, and thinking about. This month we highlight three conceptual models that may be used to help understand and organize behavioral indicators that may precede certain types of insider threat incidents.

VIDEO

From Monica Whitty's talk,
Developing a Conceptual Model for
Insider Threat, "I will be discussing
case studies of insider attacks that
took place in the UK to develop a
conceptual model for insider
threat...The work highlights the
multiple pathways to an attack,
demonstrating the various types of
insiders and methods they employed
to attack the organization."

ARTICLE

From the article by Eric Shaw and Laura Sellers, Application of the Critical-Path Method to Evaluate Insider Risks, "Our purpose in this article is to draw on the most recent and comprehensive empirical studies of insider hostile acts—ranging from formal academic efforts to collections of in-depth case reports—to demonstrate that there exists a common set of factors and a similar pattern of individual and organizational behavior across the many occurrences during recent years."

VIDEO

From the Cybersecurity & Infrastructure Security Agency's video, Pathway to Violence,

"Behavior experts reference research conducted by Frederick Calhoun and Steve Weston on threat management and further describe the six progressive steps that may be observable by colleagues."

The Defense Personnel and Security Research Center (PERSEREC) founded **The Threat Lab** in 2018 to realize the DoD Counter-Insider Threat Program Director's vision to incorporate the social and behavioral sciences into the mission space. Our team is headquartered in Seaside, California, and includes psychologists, sociologists, policy analysts, computer scientists, and other subject matter experts committed to workforce protection.
