

REMEMBER WHEN...

**A FLOPPY DISC HELD
1.44 MB OF DATA?**

Stealing a box of them
was a **MAJOR** physical
security breach.

AND NOW?

**A SINGLE 1 TB* MICRO SD CARD
CAN BE POCKETED IN AN INSTANT!**

* 1 Terabyte (TB) = 1,000,000 megabytes (MB)

SECURE STORAGE

NO MATTER HOW *SMALL OR LARGE!*
