# DON'T GET REELED IN.

Phishing is a scam by which an email user is duped into revealing personal or confidential information that the scammer can use illicitly or fraudulently.

PHISHING PREVENTION 101

Secure yourself from fraud and phishing attempts by:

- Turning off the option to automatically download attachments
- Saving and scanning any attachments before opening them
- Before providing any kind of information, call and verify with the source that they are indeed the ones who sent the email or message
